

OMNICOX

200g/kg monensin sodium

ACTIVE CONSTITUENT 200g/kg monensin

ADVANTAGES OMNICOX is a proven ionophore for the prevention and control of coccidiosis caused by Eimeria species. OMNICOX can be utilized effectively in shuttle or rotation programs with other coccidiostats.

MODE OF ACTION OMNICOX contains monensin, a poly ether ionophore than alters the pH and sodium-potassium balance resulting in cell death.

INDICATIONS For the prevention of coccidiosis in broilers caused by Eimeria species.

USAGE **Poultry Prevention:** 450 - 550 g/tonne of finished feed (equivalent to 90 - 110 ppm monensin).

PACKAGING 25kg bags. Multilayered polyethylene bag to ensure product stability in humid climates.

Store in cool dry place with adequate ventilation.

PRECAUTIONS Withholding Period for Meat: Zero (0) days.

DO NOT FEED to birds which are producing eggs or egg products for human consumption.

DO NOT FEED to broilers over 28 days of age as losses through heat stress may occur.

DO NOT FEED to horses or in feeds containing Tiamulin or Oleandomycin.

Shelf Life of 24 months from date of manufacturer. Expiration Date and Batch Number are indicated on packaging.

Suite No 19-15, Level 19, Centro Mall,
No. 8, Jalan Batu Tiga Lama, 41300 Klang, Selangor.

KSS Life Sciences delivers innovative, research-based solutions to improve the health, well – being and productivity of food producing animals.
